

# 2006 WORLD PLANNING SCHOOLS CONGRESS

11-16 July 2006 ~ Mexico City, Mexico

## *Call for Papers*

### *Diversity and Multiplicity: A New Agenda for the World Planning Community*

**WEB SITE OPEN FOR SUBMISSIONS: Monday, November 28, 2005**

The International Steering Committee of the World Planning Schools Congress cordially invites proposals for individual papers, complete paper sessions, roundtable discussions and poster presentations. The invitation is extended to faculty and students of GPEAN member programs and to scholars and scholarly practitioners outside the GPEAN family who are concerned with planning cities and regions.

- Chair, Local Organizing Committee, Prof. Sergio FLORES Pena, email: [urbanismo@correo.arq.unam.mx](mailto:urbanismo@correo.arq.unam.mx)
- Chair, International Steering Committee, Prof. Louis ALBRECHTS, email: [Louis.Albrechts@asro.kuleuven.be](mailto:Louis.Albrechts@asro.kuleuven.be);  
Co-chairs, International Steering Committee, Assoc. Prof. Johanna LOOYE e-mail: [Johanna.Looye@uc.edu](mailto:Johanna.Looye@uc.edu); Prof. WU Zhiqiang, e-mail: [dean@tongji-caup.org](mailto:dean@tongji-caup.org)

**Review:** Proposals will be reviewed by track co-chairs and anonymous readers. Proposals will either be rejected or accepted, however, there may be a short period during which some authors may be invited to revise and resubmit their work for reconsideration with acceptance based on meeting published deadlines and a second review of the proposal. This decision is left to the track co-chairs. Track co-chairs are particularly interested in both formal paper sessions and informal roundtables that examine different regions of the world to assess and synthesize the state of knowledge, revisit “classic” works, and review major new studies. If you expect to propose such a session, please discuss your scheme with the appropriate track co-chairs.

**The Fate of Your Abstract Submission:** Whether accepted or rejected, you should expect to receive constructive comments by the review committee. Disagreements with these comments should be addressed to the appropriate track co-chairs for discussion. Excellent proposals are rejected due to lack of endless time and space on the final schedule of sessions.

**Multiple Program Placements:** Multiple abstract submissions on behalf of one author will be reviewed and may possibly be accepted. However, more than one presentation of a formal paper and more than one participation in a roundtable during the conference will not be allowed. Participants on the final program will be limited to: one presentation of an individual paper whether in a formal paper session or involved in a pre-organized formal paper session; one placement on a roundtable panel; one placement as a discussant of a formal paper session. These roles are not interchangeable. If you have more than one submitted abstract accepted and are invited to participate on more than one accepted roundtable, in fairness to everyone, we will ask you to limit your participation before the final program is complete.

**Posters:** We receive more excellent proposals than we have time and space to accommodate. Poster sessions economize on space and are a particularly effective way of presenting ideas that call for review of graphic materials, a brief but dense text, or a sequence of equations. Posters will be accessible and time will be allotted for discussants to review and comment.

**Discussants:** Track Co-chairs will invite discussants for sessions. We welcome suggestions for discussants proffered by authors and session organizers. If you are willing to act as discussant, please contact the appropriate track chairs.

**Pre-Organized Sessions:** Since the spirit of the world congress is international exchange, we request that any pre-organized sessions include papers/presentations from faculty from more than one GPEAN association. The conference committee will generally respect the grouping of papers in pre-organized sessions but reserves the right to realign papers when it has all the proposals before it. Instructions for submitting a session in its entirety can be found at <http://wpssc-06.unam.mx>. Please read the instructions before attempting to work within the abstract management system. The conference management office extends its assistance to submitting the session successfully into the web-based abstract management system. Admittedly it can be a confusing process! Please email [WorldCongress06@comcast.net](mailto:WorldCongress06@comcast.net) in advance of your submission for personal assistance.

**Submission Requirements:** Abstracts must be submitted to one and only one track. The tracks are listed at the end of this invitation. If you are not sure which track is most appropriate, we encourage you to seek the advice of a track co-chair. Abstracts should contain the following information in 500 words or less. If you think that these requirements are inappropriate for your work, please provide other relevant information but do not attach full bibliographies, reports, or full papers.

- central theme or hypothesis: what question are you trying to address?
- approach and methodology: how will you address that question?
- relevance of your work to planning education, practice, or scholarship
- key data sources
- 3-5 major references to allow the track co-chairs to place your work in its field.

**Doctoral Students:** Please indicate the relation between your proposal and your doctoral dissertation – completed or in the works (e.g. “no connection,” “drawn from an almost completed dissertation,” “drawn from an approved dissertation proposal”). Include the name and e-mail address of your advisor or dissertation supervisor with your abstract. Place this information at the bottom of your text, or in the top of the reference section of your submission.

**Scheduling Constraints:** If you have a scheduling constraint, indicate this prominently on your abstract and in the scheduling step of the abstract submission web site. The Congress organization recognizes teaching duties and religious holidays. The Congress organization does not accept requests for scheduling changes after abstract submissions are closed (January 16<sup>th</sup>), except in cases of emergency. Such requests must be made in writing by email to

**WorldCongress06@comcast.net.**

**Submission and Fees:** You must submit your abstract using the online abstract management system available through the link at <http://wpssc-06.unam.mx>. The required fee for **online submission is \$25 (U.S. dollars)** per abstract. The fee for proposals submitted **by mail is \$50 (U.S. dollars)** per abstract. The congress organization does not accept abstract submissions by fax or e-mail. The congress organization accepts Mastercard or Visa and only if *truly* necessary can assist with arranging for bank transfer of funds with all processing fees as the responsibility of the submitting author.

**Submitting By Mail:** If submitting by mail, you must send one typed cover sheet for each abstract including formal/informal papers, roundtables and poster sessions. If you submit a pre-organized formal paper session, please submit one abstract and one cover form for the session overview, and one abstract and one cover form for each paper in the session. The deadline for submitting by mail is the same deadline for online submission, however abstracts must **be received by January 16<sup>th</sup>** not just postmarked by January 16<sup>th</sup>. Abstracts mailed without payment information will not be submitted until the fee is collected.

**Please understand that abstracts can not successfully be submitted to the abstract management system by Congress staff without all the required information.**

When submitting by mail, the cover sheet and submission must provide the exact information in chronological order as requested below. If an answer to a header is “not applicable” please include the header and type “not applicable” next to it.
